Open Ended Feedback By Question

What aspects of this course were most beneficial to you?

Comments

- Having a defined eclipse workspace. I've never taken a college coding course so I don't know if this is standard or not but it was nice nonetheless.
- Learning how to program holistically and not using whack-a-mole programming.
- The lectures in person/synchronously help give a different perspective to the online recordings and textbook.
- The video lectures were available enytime.
- Getting to learn about how to optimize code was very useful!
### What suggestions do you have that could help improve the course?
